We need a minimum of 150 donations to complete this project

St Mark's Cozy Home is a care home for the elderly. The three-storey home which provides 24/7 care for its resident includes a garden with pathway. The residents use the garden pathway for their daily walk (exercise).

Unfortunately, the aging garden pathway which was built 16 years ago is now cracked and unsafe (risk of trips and falls).

The total cost of the pathway refurbishment is RM 18,000.00

Due to the rising cost of living and pandemic expenses, the home is unable to meet the expenditure to repave and widen the pathway. We humbly request for your support and donations for this refurbishment project.

Thank you.
