

UITM Students' final year practical

On Tuesday, 7th February 2023 some 12 trainee doctors from UITM along with a staff and 3 supervisors, entertained the Residents with games and instructions on proper tooth brushing, healthy food choices, dental health and oral hygiene.

The trainees, under the watchful eyes of their supervisors performed the following:

1. Prepare patients to undergo dental procedures
2. Discussing dental concerns and treating them
3. Explaining dental hygiene plan
4. Educating the patients on dental care
5. Patient assessment, treatment planning and explanation
6. Engaged and formed a connection with the patients
7. Document patients progress
8. Performed patient education before and after procedures
